Durapac is a leading force in high pressure hydraulic equipment that brings together decades of industry experience with a global manufacturing base to produce a complete range of quality industrial tools.

We provide state of the art 700 bar cylinder, pumps and hydraulic equipment used by a vast and diverse client base that includes construction, mining, engineering, railways, petrochemical, energy and defense workers.

At Durapac, we are serious about reliability, not just in our products but also in our people, distribution, stock holding & after sales service. For our customers this means a better quality of product.

DURAPAC

Safe D Lock[®] Jack + POWERDRIVE

The Safe D Lock[®] jack is a revolutionary design with the operators' safety paramount. It is a lifting jack and rated jacking stand for heavy mining vehicles. With a self-propelled additional feature, POWERDRIVE.
